Holly,
I'm still trying to shake loose PFOS/PFOA.

WPS is a separate issue—we have a piece on that one as well. It's a totally separable issue (although WPS and PRIA are the ones that have sadly become connected).
On WPS, I think I may have given you a handcopy update (I'm not certain) but here is a redline to make sure we have an update. The situation keeps evolving.
Tate- are you ok with this new WPS language for the budget book?

I think for Glyphosate we wanted to know What obligation does EPA have to issue the Worker Protection Rule/Applicator Rule? Please correct me if you are incorrect.

Is PFOS/PFOA still coming today?

Do you mean perflourinated (PFOS/PFOA)?
There is a glyphosate one already (see attached). I got some information on timelines from staff and the FIFRA re-registration process requires an updated review by 2020. Thus I'm not sure it leads to any changes in the fact sheet. Do your notes have an angle I'm forgetting about?

Thanks!

Hi Nancy, just a reminder to provide this fact sheet by noon.

Thanks!
